The 1982 Marlay Point Overnight Race was, as usual, quite unlike any previous event. Pre-race planning and the logistics of handling the large numbers of yachts, crew and spectators, gave only a few minor problems. Pressure seemed to be not so great on the launching ramps, due to a greater number of yachts launching at Paynesville and sailing to Marlay Point.

The weather for the race was a mixed bag with rain, sun, and fronts striking with varying intensity and direction as they moved from West to East along the course. Despite wild rumours buzzing along the Paynesville waterfront, the total damage done by the weather amounted to six masts, two yachts capsized and one swamped, a few lost headsails and spinnakers, a broken leg and a burned hand.

There were many retirements, mostly by skippers not liking the look of Lake Victoria and waiting at Holland's Landing.

A strange quirk of the winds caused a break in the fleet, with no yacht finishing between 10.10 and 11.30.

As usual, the race for line honours by the go-fast fanatics claimed the most attention from the media, and the Race Committee sees real problems in the future handling protests about infringements of class rules in classes which are too new to have such things.

Despite all this, the race remains as a fun weekend for the average yachtie, and we thank all competitors and congratulate the trophy winners — see you next year!
