1988

The Caltex Marlay Point Overnight Race 1988 lived up to its reputation for providing something different each year. Most of us though could have done without this years variation.

These are the statistics:

651 yachts entered

456 yachts started

169 yachts finished correctly.

There were 38 official rescue boats and 5 race official boats.

8 yachts capsized and could not be righted by their crew. A further 37 yachts received assistance of some kind from the rescue fleet.

The maximum wind gust recorded at Coast Guard Loch Sport was 48 knots.

The morning weather forecast for local coastal waters was 30 to 40 knots, slowly moderating!

Congratulations to those crews who finished.

It took a lot of intestinal fortitude to face up to that windward bash back to the finish, and must give you a lot of satisfaction in a job well done. On the other hand many prudent skippers must receive recognition for making the decision not to continue. That sort of weather is not to be fooled with. Commiserations to those who had the misfortune to suffer gear failure. No doubt there were some hard lessons learnt.

This was the first time our safety and rescue plan had been really put to the test and the club are very pleased with the way it all worked. No one was in trouble for long before receiving an offer of assistance. We would like to mention a point of etiquette regarding rescues.

A few crews were not sympathetic to the job being done by the Safety patrol and became upset when their rescuer would not also take their yacht in tow. Yacht clubs everywhere are as one in this - get the crew off safely & retrieve the vessel when you can. When there is lots of trouble in a short space of time it is unreasonable to tie rescue facilities up in recovery of boats. In the end, boats do get satisfactorily retrieved.

This year we are making an exception with the award of race medallions. All finishers will receive their medallion as usual but in addition all skippers who signed on will receive a medallion, over engraved with the letters DNF or DNS as appropriate. This decision is for this 20th anniversary year only and is meant to recognize the mitigating circumstances that influenced most skippers to withdraw.

PHOTOGRAPHS.

Two photographers were in action for the race.

1. Michael Riley of Bairnsdale was engaged by the club to take action photos for the club file. Michael was on board 'Spray' and has a large range of shots both at the start and at many stages through the race to the finish. He has produced the enclosed list of yachts that are on film.
2. Allan Quinn of Chadstone, of his own initiative took a series of photos from the shore of Hollands Landing. A copy of his enquiry form is enclosed

Contact either photographer direct if you are interested in copies.
