30th Marlay Point Overnighter 1998

This is where we live... prime

The 30th Marlay Point Overnight Race was a successful event, run in favourable weather conditions, and with no serious logistical problems.

Yachts and Crews were tested by the adverse current in McLennan Strait, presumably caused by the strong westerly winds on the Lakes for the few days prior to the event.

The Race Committee once again thanks all competitors and congratulates those that have been successful. We are more than happy to receive constructive suggestions for the format of future races,so if you have something to say, say it now while it's fresh in your mind.

Once again, thank you for your support, and we look forward to seeing you next year.
