FIRST TRAILABLE YACHT TO FINISH

Trailer Tri 680	Bob Hall	Canberra

WOODEN SPOON

Hartley TS 16	Peter Coffey	TS 16 Association

SPECIAL ACKNOWLEDGMENT

Most competitors, along with the race committee, must feel expecially sympathetic towards Peter Brownbill and his crew. Knowing that h handicap gives him very little chance at a corrected time win, Peter made a big effort to take out line honours in his modified Etchell

All went well and Teal was well clear of the fleet approaching Shaving Point. To his horror Peter put Teal hard aground while rounding this mark and stuck fast for some hours.

What all race committees dread, had happened - the mark had drifted. Quick thinking by patrol boat skipper Stuart Wade had the buoy ba in position, tied to Stuarts boat, in time for Merv Howlet in Golden Eagle to round in deep water, followed by the rest of the fleet wh Peter and his crew watched in frustration. Rather than cause acute embarrasment all round Peter decided not to protest, although he ha made several colourful suggestions as to what we ought to do about that mark next time. Not much consolation Peter but we all feel for in your misery - hope you crack it next year.

THE 1980 STATS

652 entries - we are sorry that we had to reject a few late entries but we did strongly emphasise that no late entries would be accepte it's all in the interests of instant computer read out of results - something the 652 people who correctly entered on time seem to appr

607 starters - commiserations to the 45 who had to cancel out - they missed on exhilarating sailing experience.

529 finishers - we are pleased that a majority of non finishers took the responsible action of letting us know. But there were the unt skippers that cause us time and worry trying to account for them.

Some of the yachts (12) were declared non finishers, even though they were timed accross the line, as they failed to hand in a log. Ap from these few, most lodged a signed declaration but we were disappointed this year at the lack of detail, particularly finish time on logs. Data supplied on correctly filled in logs is invaluable in confirming final results - we are still plauged by skippers who eithe forget to display a race number at the finish or whose number is too small to be read at the finish box.

3 protests - one exonerated by wearing the appropriate penalty, one incorrectly lodged so disallowed, one yet to be heard.

Three capsizes. No rescue problems and no significant damage BUT in one case two crew were separated from the boat. We get some criti from time to time re our life jacket/buoyancy vest requirement. Each year we feel more and more justified in this safety stand.

A lot more yachts this year demonstrating the all round versitility of trailerable yachts by taking a few extra days off and cruising t lakes - some from Paynesville to Marlay Point before the race, some ditto after the race. To some its the best part of the weekend. I sure took a lot of heat off the traffic control in and out of the ramps.

12 Marlay Point Overnight Races - and each one with its own different character. We were pleased that our hither to untested plan for darkness finish, worked well. We hope to see you all back at this great happening in 1981 for some more Marlay Magic (madness??).
